

Reese Piano Technique

Enchanting, Expressive, Effortless

Private and Group Sessions with Pianist Nancy Reese
Kansas City
Feb. 15-19, 2019

I am delighted to be coming again to Kansas City to work with teachers, students, and performers. New this time: adult group classes and teacher/student group classes in addition to private coaching. Group sessions will provide opportunities to participate and also to observe.

We will explore: using our *entire body* to play, how the fingers can "*be played*" by the keys, the benefits of a *flexible palm*, and how to diagnose and solve musical and technical problems in ourselves and in our students.

Be prepared to have many "aha!" experiences...and take your playing/teaching to new levels of freedom and expressiveness.

"The palm must be as flexible as an octopus." -- Daniil Trifonov
